✓ WHAT MAKES ASIANA BRIDAL & TRAINING ACADEMY DIFFERENT?

Throughout the 5-6 day courses our students develop an exceedingly amount of confidence and motivation, underlining the fact that this is an intense course filled with a great deal of information which can be quite overwhelming. But we believe all of our students flourish with this zeal because our students are always learning something new and exciting.

Here at the academy not one learning day will mirror the previous day, each day students will learn a makeup look that is completely different from what they had already learnt. This means everyday students will be learning right from scratch but using different techniques and makeup, we have listed just a small handful of examples below of what each day of your course will consist of:

- Completely new base (matte,dewy,glass & many more)
- Each day a new contouring technique will be revealed
- The use of various of makeup brands this includes; drug store,high end and international
- Multiple way of using one product
- Makeup styles from diverse cultures
- Working with different colour schemes
- Working with different skin types
- Going through skin care products & how to work with them (again everyday you will be introduced to a new skincare technique)
- How to work with both makeup brushes,beauty blenders and microfiber velvet sponge
